

Compact Vacuum Forming Machine

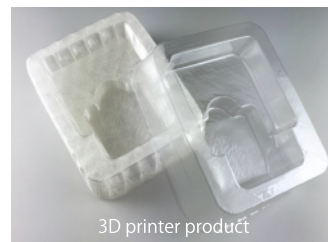

v. former®

Easy! Safe! Compact!

You can make molds of anything around you.

You can make molds for things which don't exist. Make the shape with clay, plaster or Styrofoam. Make the shape with a 3D printer. We always welcome calls for help. Feel free to contact us.

We always welcome contacts from agencies and partner companies interested in our product.

Please contact v.former for orders, queries and details.
